The JENNABEARS Foundation (TJF) and the events they support promote Community Awareness for families who have suffered the tragic loss or crippling injury of a child or family member to automobile accidents. They also provide support through the healing process with regards to travel, trauma counseling and hospital support services at Phoenix Children Hospitals and other facilities. See more information at www.jennabearsfoundation.org

The Foundation was founded by Chris and Nicole Eades, after a tragic, *preventable* accident left them dealing with critical injuries to themselves, their oldest daughter, and the tragic death of their infant daughter Jenna. The family is still battling in court hoping to find closure and forcing "accountability" of the young driver who is responsible for their loss from the 2007 automobile accident in Maricopa County Arizona.

Other foundations participating in the event include:
 AZ SADD (Students Against Destructive Decisions—formerly known as Students Against Drunk Drivers) - www.sadd.org
 Red Means Stop & Driving MBA - www.orgsites.com/az/rms/
 M.I.S.S. Foundation— Mothers in Sympathy & Support www.misschildren.org
